WHO WE ARE

“Tebadul” International Trade Company constitutes a vital investment addition to “Imtilak Group” known for its multiple activities and its distinction in many fields, since its launch in Turkey back in 2012, with experience extending to before the year 2000.

Tebadul Company specializes in exporting goods and products of all kinds from Turkey to all parts of the world whether the goods are of its production, manufactured for it, or other ready goods, the company is characterized by its high professionalism as well as credibility in its business.

OBJECTIVES

Through our practical experience in the Turkish markets and Turkey's centralized location in the Middle East, in addition to our extensive contact with large segments of businessmen, we have felt the need for a safe and more attractive alternative among the businessmen and companies who are importing from Turkey, they needed an alternative that keeps them fully informed about the Turkish markets and their hidden treasures and real opportunities.

It is known that Turkey competes greater in the largest global markets in the fields of production, and manufacturing, and the prices as well, but the Turkish market has not yet been fully discovered yet. Due to this, "Tebadul" Company emerged as a producing and exporting alternative sometimes, and as a link between the major investors who wish to benefit from all the various Turkish markets and between these markets and companies some other times, through providing the requirements of the importers within professional conditions and distinguished results, reflecting the experience of Tebadul in the Turkish markets.

WHY TEBADUL?

Perhaps the most important thing that encourages businessmen to choose “Tebadul” Company more than other companies, is that it offers them one or more of these advantages:

- ☑ Better quality products.
- ☑ Stronger guarantee for the process of import, export, and transport...
- ☑ Wider market, extra production options, and more alternatives.
- ☑ Faster handling, stronger interest, and instant professional communication.
- ☑ Competitive prices.
- ☑ Fast delivery and shipping.

OUR SERVICES

We are working to provide the necessary support in the field of exporting Turkish goods, starting with specifying the best suppliers and manufacturers and choosing the best resources in Turkey, which is known for its vastness and abundance of options.

Then arranging everything related to negotiations to obtain the best prices and to arrange the receipt of goods and its accompanying processes of packing, packaging, and internal shipping, in addition to exporting the product to the importing country while facilitating customs clearance and shipping operations by specialized experts.

FINDING PRODUCTS

This is carried out through studying the client's request and fulfilling it directly, or by determining the best supplier for the client in Turkey after specifying the standards in terms of quality and nature of the raw materials (by specialists) and the price, and the proximity to the shipment port.

This is carried out by supervising the production process and sending the details to the importer day after day; while following up the process of receiving the goods from the supplier and verifying that they conform to the specifications required by the importer.

In this context, we in “Tebadul,” continue supervising the following stages “according to the nature of the product”:

- ☑ Operations of manufacturing and production.
- ☑ Packing and packaging process.
- ☑ Internal shipments to the ports or borders.
- ☑ Operations of storing in warehouses on Turkish lands or in the free zone until the importer requests the export process to start.
- ☑ Loading and sending by professionals.

RECEIVING AND PROCESSING THE GOODS

CUSTOMS CLEARANCE SERVICES

Among the necessary natural services provided by “Tebadul” as part of the work is the “customs clearance”, which includes:

- ✓ Opening and closing the customs declaration.
- ✓ Securing the required certificates for the product (licenses, certificates of origin, export permits).
- ✓ Organizing bills and the certificate of Chamber of Commerce. Reservation of various types of shipping containers (regular, refrigerated, open, and giant).
- ✓ Customs clearance process in the importer’s country upon request.
- ✓ Securing exclusive brands: for those wishing to import an exclusive distinctive product, we have offers for manufacture the product according to the required standards and registering the trademark in the name of the concerned importer in exclusive contracts for the agreed-upon products.
