# services

## Imports and Exports

We open new markets for our customers to export or import their products. We add a distinct diversity to the list of exports, especially the products of Turkey and other countries.

## Packing and Packaging

Through this service, we make sure to receive the customer's goods from the factory, package them in accordance with the customer's needs, and ensure the safety of the products before shipping them.

## Customs Clearance

Our professional team makes sure that there are no mistakes during the export process. The team supervises the workflow to ensure that no financial losses occur.

## Shipping

The company provides all logistical support for shipping whether by land, sea, or air and makes sure that the shipping process is completed safely.

# B R A N D S

We have created new brands with the new children's equipment models and we have developed over time.

We aim to take place among the world brands in this sector with our own brands.

We produce not only with our own brands, but also with the brands of the companies we work with.
